

NS-ACL30W-01

LED Energy Saving light

General illumination

Outdoor use in outdoor luminaires only (minimum Ip65)

Reduces lumen maintain flux and working life if used in sealed lamp fixtures. ①

Product features

- Unique structure design, removable power supply and light source (easier for power supply and light source replacement if needed).
- Pure aluminum through hole and air convection design to speed up heat dissipation.
- No UV and near-IR radiation in the light beam.
- Very low energy consumption, Lower thermal output.
- Not suitable for dimmers, electronic switches and remote controls.
- Can be easily fitted instead of ordinary light bulbs.
- Mainly used in work places, supermarkets and public lighting.

Attention ①

When the products are used in the outdoor lighting, ensure the space is waterproof and well ventilated. Pay attention to the size of the confined space. Ensure the lamp has enough space for heat dissipation which ensures lumen maintenance and extends its working life.

As shown below, for your reference

When 30W warehouse light is used in confined space, the diameter must be more than 40cm.

Additional product data

All technical parameters apply to the entire lamp/Due to the complex production process for light-emitting diodes, the typical values shown for the technical LED parameters are purely statistical values that do not necessarily match the actual technical parameters of each individual product, which can vary from the typical value.
