UVC Disinfection Box

UV Disinfection Box

Full coverage · **one-button start** · **Efficient convenient** · **Safe healthy** · **Aromatherapy**

Super sterilization and disinfection box
Multiple Applications

Features Description

1. With UV tubes in two sides of the Box, 360 degree circulation disinfection.
2. Can be a power supply for other devices by USB charging during disinfection process.
3. Aromatherapy function to provide fragrance for the disinfection object.
4. Indicator lights and voice prompts to ensure safe and correct use
5. Safe and portable with DC5V supply .
6. Large capacity disinfection, appliable for up to 6 inch mobile phones, watches, toothbrushes, masks, underwear, jewelry and other small objects.

Warning

1. Keep the Box far from flame, water and corrosive chemicals.
2. Do not clean the Box with organic solvent.
3. Do not stare at the disinfection box for a long time.

How to use

1. Connect the power supply cable, put the object into the disinfection box, press the Sterilize button, then the object begins to be sterilized, and the Indicator lights is showing the disinfection progress. After 3 minutes, disinfection is completed and the UV tubes will turn off automatically. If you like aromatherapy, put essential oil in the aroma inlet, then press the Incense button anytime.
