

# 500W Portable Solar Generator Power Station

## 1-Product Details

## 2-Product performance description

\*500W portable power station power generator, its capacity is 450Wh/9v-14.8v

\*Support QC3.0 Quick Charge double Charging Rate and Type C output-PD60W

\*EU plug,USA plug & Universal plug is optional

\*Charging Options:Solar Panel/Car/Home Adaptor

\*It is professional outdoor power supply. It can be used for picnic, camping, logging and medical treatment.

## 3-data sheet

parameter	
Model	NS-ESP-500-01
Typec	PD60W
USBA	PD60W
UBSA*2	QC3.0
DC Input	10-24V
AC Output	220VAC
DC output	12.6V 5A
AC rated power	500W
AC peak power	1000w
Function display	available
Solar Panel Charging	Available/ 7~8 hours Weather dependent
Main control board Dimensions	13.5*12.5*3.8cm
Fan	12V

LED light type	COB LED light with long bright
battery capacity	450Wh (Range of power supply 9v-14.8v)
Battery Specifications	lithium iron phosphate 30AH
Battery compartment Size	18.6*10.5*8.5cm
charger plug	12.6v 60w
external dimension	26*14*14cm
product weight	4.7kg
charging time	3Hours
Material of Casing	ABS+PC
Function	It is professional outdoor power supply. It can be used for picnic, camping, logging and medical treatment.
